

Caring for a **Puppy or Dog**

Taking care of a dog or puppy is a big job! Find out what supplies you will need and what responsibilities you will have to take care of your new best friend.

Supplies Needed

- Premium quality dog food and treats for the right breed and size
- Food and water bowls – ceramic and metal bowls clean up better
- Safe toys – make sure there's no lead paint or breakable parts
- Dog brush and comb
- Dog shampoo
- Pooper scooper and biodegradable poop bags
- Collar with license and ID tag
- Leash
- Dog nail clippers
- Carrier or crate
- Dog bed
- Dog toothbrush and dog toothpaste

What to Feed Your Puppy or Dog

- Adult dogs should eat premium-quality dry food. If you want, you can mix the dry food with water, low-salt broth or canned food
- Dogs can eat MOST fruits and vegetables, but never more than 10% of their daily diet. See the **Dangers!** list of foods that shouldn't be given to dogs.
- Puppies need a high-quality puppy food
- Avoid "people food" for all dogs and puppies
- Dogs and puppies need clean, fresh water available at all times

Dangers! Never Give Your Puppy or Dog

- Anything harder than your pet's teeth. This includes cow bones, nylon bones and real bones. These can break a dog's teeth.
- House plants
- T-shirts or knotted socks. If accidentally chewed apart and ingested, they can become "foreign bodies", causing your pet to become very ill.
- Medicines unless it's recommended by a veterinarian
- Alcohol
- Chocolate
- Coffee
- Grapes and raisins
- Moldy or spoiled food
- Onions, garlic or chives
- Poultry bones
- Salty foods or salt
- Tomato leaves or stems
- Unripe fruit
- Nuts

Caring for a **Puppy or Dog**

Exercise

- Different dogs need different amounts of exercise. Some dogs need a lot. Some dogs get hurt if they exercise too much. Ask your veterinarian what's best for your pet.
- When walking your pet, be careful of ice or snow, deicer salt, or hot pavement

Daily Chores

- Gently brush your dog's fur
- Play with your dog
- Walk your dog – ask your veterinarian how long and how much
- Brush your dog's teeth – chew toys aren't enough
- Clean up poop
- Clean water and food bowls
- Feed and water your pet

Monthly

- Bathe your dog if needed. Some dogs don't need to be bathed monthly.
- Have your parents or guardian:
 - Check your dog's nails to see if they need to be clipped
 - Give your dog a heartworm pill from your veterinarian - no matter which state you live in!
 - Ask your veterinarian to see if your dog needs his/ her ear hair trimmed or if he/she needs his/her "anal glands expressed"
 - Apply a flea/tick prevention treatment

Be Gentle

- Never hit a dog, they don't understand what hitting is
- Never grab your dog's fur or tail
- Don't force a tired dog to play

Get a License and ID

- Follow your city's licensing laws
- Attach the license to your dog's collar
- Microchip your dog

Spay and Neuter

- To prevent health problems, females should be spayed and males should be neutered. Check with your veterinarian on the appropriate age to spay or neuter your pet.
- Dogs that are spayed/neutered don't run away or fight as much

Yearly

- Have your parent or guardian take your dog to your veterinarian for a check-up every year
